

## It All Adds Up Lyrics (Example 1.)

### It All Adds Up

**Chorus.** It all adds up, everywhere.  
It all adds up, if you care.  
It all adds up, if you do your share.  
It all adds up to cleaner air.

**Verse 1.** The lettuce that you left and the bone from the ham.  
A styrofoam carton, an aluminum can.  
Oil and leaves and a tire that's flat.  
What's gonna' happen to all of that?  
What's gonna' happen to all of that?

**Verse 2.** Someone in grandma's neighborhood  
Was burning oil cans and treated wood.  
Grandma started to cough and hack.  
She said "that's gonna' give me a heart attack."  
She said "that's gonna' give me a heart attack."

**Verse 3.** Great Aunt Suzy tried to burn a diaper,  
An oil filter and a windshield wiper.  
The smoke turned all black and smelly.  
Bad for your lungs and bad for your belly.  
Bad for your lungs and bad for your belly.

**Verse 4.** My little brother can be a pest.  
But yesterday, even I was impressed.  
He saw my dad start a backyard fire.  
He said, "hey there, dad, don't burn those tires."  
Hey there, dad, don't burn those tires, because."
